The largest audience yet to hear Dr. Violette assembled in the Christian church last night as he discussed, "The Worst Thing in Richmond". Mr. Violette interpreted his theme by holding that sin was the worst thing in Richmond. The message was a heart searching one and was heard by the large audience with the greatest interest. The congregation singing, led by the chorus under Mr. Violette's direction and featured by a solo from Miss Metcalf reached its high water mark last night.
Tonight the subject will be, "Why

The automoble issues which stand uppermost today are the same which four years ago made Hudson the largest selling fine car. They have kept it in that position ever since.

Let us not confuse them. It is not speed, not power, not hill climbing ability-though Hudson holds those stock car

It is the fact that those records were won through endurance, made possible by Hudson, known as the Super-Six.

And those records, after many attempts to match them, still belong to Hudson, because equal endurance has not been established in

Is Only Supreme Feature Ever Controlled by One Maker

Never before has any one car held ail the worth while records. Never has one car proved supreme in speed, in hill climbing, in flexibility and in endurance.

Never before has a major feature been controlled by a single maker. The Super-Six by a single invention, increased motor power 72 per cent. No other cars has, or can have, until Hudson wills, a motor like the Super-Six. What maker can approach it in things that count for most? Until Hudson consents to its use by others men who want such a great car must choose the Super-Six.

Improved Through Four Years of Experience

Since the first Super-Six many advancements have been made in the Hudson. But the principle by which it attained its supremacy remains unchanged. Refinements have been added as the result of experience. The things which Hudson owners had said would make the Super-Six the finest car that is built, are included in the present Hudson.

What car has had equal opportunity to do these things? Before the present model was offered, 60,000 owners of earlier Super-Sixes were influencing its developement.

Such a Car Is Always in Demand

Men have long known that to get a Hudson it is necessary to make reservations in advance. On some models and in some seasons thousands have waited a month or more.

No man can drive a Hudson without feeling a growing respect for it. Old models are retained by owners with an affection equal to

that extended toward a faithful servant. Super-Six owners know the real meaning of motor car satisfaction. Their needs are
